

## Product Change Notice

Issue Date: 31 August 2007  
 Revised Date: 18 September 2007  
 Revised Date: 23 November 2007  
**Revised Date: 12 February 2008**  
**Revised Date: 13 March 2008**

### Change Type:

- 1) New lead-frame change
- 2) Revised LED provides better efficiencies
- 3) Bi-polar IC fabrication pre-deposition process standardization
- 4) Relocate LED saw and test site

### Parts Affected:

All plastic optocouplers part numbers are affected. See affected part list at page 3.

**Please note that for ACPL/HCPL-xxxJ; ACNW/HCNW/HCNRxxxx, leadframe change does not apply.**

Parts that are **NOT** affected are:

4N25	ACPL-217	HCPL-3100	HCPL-0810
4N35	ACPL-214	HCPL-3101	HCPL-0820
CNY17-X	ACPL-827	HCPL-9xxx	HCPL-0872
HCPL-181	ACPL-824	HCPL-09xx	QCPL-0871
HCPL-354	ACPL-847	HCPL-90xJ	ACPL-M61T
HCPL-814	ACPL-844	HCPL-09xJ	ACPL-M43T
HCPL-817	HCPL-3000	HCPL-8100	ASSR-xxxx

The above parts include special part numbers and associated options

### Description and Extent of Change:

1. Copper Lead-frame Alloy 194 reduces matt tin whisker risk (for leadfree finishing).  
(This material combination has been used in SO16 and HCNW platforms)
2. Removal of redundant area from LED provides best fit to the new lead-frame
3. ICs pre-deposition emitter process conversion from solid material source to vapor phase source
4. Relocate LED saw and test site from Singapore to Malaysia

**Reasons for Change:**

1. Quality improvement using Alloy 194 Copper Lead-frame that reduces tin whisker risk.
2. The LED change is for process improvement with better efficiencies as well as for best fit to the new lead-frame
3. Wafer fabrication supplier pre-deposition process standardization and equipment renewal
4. Consolidation of LED preparation site

**Effect of Change on Fit, Form, Function, Quality, or Reliability:**

There will not be any form-fit or electrical performance changes. Both quality and reliability of the affected parts are assured

**Effective Date of Change:**

Product shipments using this change will begin with date-code starting from 0808 (yyww). However, timing of shipment of changed part will vary by part number depending on qualification completion, customer demand and inventory levels.

**Qualification Data:**

Qualification data has been generated and approved.

---

These changes have been reviewed and approved by Avago Technologies engineers and managers per Avago Technologies procedure: Change Control and Customer Notification, A-5962-6052-80.

Please contact your Avago Technologies field sales engineer or Contact Center (<http://www.avagotech.com/contact/>) for any questions or support requirements. Please return any response as soon as possible, but not to exceed 30 days.
